7. Regular sources of data

Customer data are mainly received from:

- The user through a form used by the online service.
- The website's cookies by third parties (partners) that are used as part of measuring and monitoring services. Third parties may install cookies on your device when you visit our website. The cookies mainly collect technical data. The website displays a cookie consent banner that the user may accept.

What are cookies?

Cookies are small text files. The browser will delete the cookies after they expire. You can

freely manage any cookies installed by the website. Cookies provide the server with data on how the website was used during the visit. For example, cookies ensure that the language settings selected by the visitor are saved.

Google Analytics

This website uses Google Analytics to collect statistical data on visits to the website. We collect this data in a way that does not identify you.

Evästeiden ja analytiikan kautta kerättävät henkilötiedot

Statistics on and monitoring of visitors are data conveyed by the browser and Internet connection that cannot be used to identify the visitor. The data are also never processed or combined with other data in a way that could be used to identify the visitor.

8. Regular disclosure of data

- The data will not be used for marketing purposes without the express consent of the customer.
- The data are not regularly transferred or disclosed outside the EU or the EEA, excluding data possibly collected by external services mentioned in section 7.

9. Transfer of data outside the EU or the EEA

- The data are not transferred or disclosed outside the EU or the EEA as standard, excluding data possibly collected by external services mentioned in section 7.

10. Rights of the customer

Right of access, right to rectification and right to be forgotten

- The customer has right of access to their personal data contained in the data file.
- If the data contain errors or the customer wants the data to be removed from the data file, they may submit a request to the contact person on matters concerning the data file stated in section 2.

11. Principles of data file protection

Manual records

- There are no manual records.

Electronically stored data

- All personal data are kept confidential. The hardware that contains the data file is protected by a firewall, regular backup copies and other technical solutions necessary to protect and safely store personal data.
